SUMMARY

Software Developer with a passion for visual design and seamless user experience. As a lifelong learner and independent self-starter, I am constantly searching for new trends in the industry in order to create cutting edge products. I seek the opportunity to leverage my creative and analytical skills to build amazing, fast, modern websites and applications.

Dance studio website | Solo Developer | [Github](#) | [Demo](#) | Content Management System for a dance studio

- Front end with ReactJS, JavaScript, React Router
- Developed a Rails API back end with endpoints for users, categories and dance classes
- Developed an authentication system with Rails on back end and Json Web Token and local storage on the client side
- Implemented the user interface with fully CSS styling
